New Features and Enhancements

1.1.0 New Features and Enhancements
Digital Payments: Saves the Trans ID coming back from an authorization into the **Auth Ref Num** field.
New Report: Added the report to the Financial Accounting menu: **Reauthorize and Release Billing Documents**. • This transaction executes the standard SAP transaction VFX3, "Release Billing Documents for Accounting" with additional enhancements. • The enhanced version of this program allows running it as a background job, which can submit the order(s) from which the billing documents originated for a new authorization.
